### INTERNATIONAL STUDENT ADMISSION PLACEMENT PRINCIPLES

- 1) International student candidates can apply to a maximum of 5 programs and will be placed in only one program.
- 2) The scores of the candidates who meet the application requirements are listed by converting into a hundred percent system, with the highest 100 (one hundred) being accepted. In order for a candidate to be placed in a program, it is sufficient to get the minimum score in the related tables in the type of score she/he applied for.
- 3) The number of candidates who are entitled to enroll from the same country cannot exceed 20% of the total quota of the related program. If the quotas are not filled, the candidates are placed in order of success points, regardless of this rule. The provision of article 6 is reserved in daytime (I. öğretim) education.
- 4) In case of equality in candidates who apply with exam scores in placement to quotas, priority is given to the one with a high high school diploma grade first, and in case of continuing equality, low age is taken into account. In terms of age equality, the preference rank of the candidate is considered. In case of equality of candidates who apply with diploma score, the younger age and order of preference are taken into consideration.
- 5) With the decision to be taken by the University Senate, restrictions may be imposed according to nationality for the acceptance of foreign students in the specified academic year.
- 6) a) According to the principles regarding student admission from abroad, a 10% quota limitation is applied for the departments of Medicine, Dentistry, Law and Education Faculty in the applications of candidates;
  - With a blue card who have the opportunity to apply for student admission quotas from abroad,
  - Who are Turkish nationality, those who have completed the last three years of their secondary education (high school) in a foreign country excluding the TRNC before 01/02/2013  
(including those who have completed all of their secondary education (high school) in a Turkish school opened by the Ministry of National Education in a foreign country other than the TRNC (excluding the TRNC),
    - Those who have Turkish nationality, one of which is Turkish nationality for dual nationals
    - Who are citizens of Syria, Azerbaijan and Greece.In the original placement, if the 10% quota is filled, those who are not registered or those who are within the scope of this limitation cannot be placed in the additional placements to be made to the vacant quotas. 10% quota limitation is not applied for placements in the Second Education Departments.  
  
b) For the Faculty and Vocational School departments other than the programs specified in paragraph a) above, 10% country quota limitation is applied for the applications of the candidates who are Syrian, Greek and Azerbaijani nationals. In the main placement, if the 10% quota is filled, those who are not registered or those who are within the scope of this limitation cannot be placed in the additional placements to be made to the vacant quotas. 10% quota limitation shall not be applied for these countries for placements to be made in the Second Education programs.
- 7) The actual placements and additional placements to be made to the vacant quotas are carried

out by the placement of students who have a valid score for application according to the International Exam Results (ACT etc.) specified in Table I. In case the vacancies in quotas, placements are made according to the results of the national exams specified in Table 2. For the quotas that remain vacant after this placement process, placements are made by taking into account the superiority of the high school diploma score and high school graduation exam results (Abitur, Matura, GCE AL, etc.) specified in Table 3.

- 8) New application periods may be opened when deemed necessary for the quotas remaining vacant at the end of the original placements. The "Abroad Student Admission Evaluation and Placement Commission" appointed by the University Administrative Board, can make placements among the candidates applying for these terms who have the minimum score criterion and /or who have at least 60 points in the 100-point system for the diploma scores that are not listed in the tables regardless of the quota limitation in paragraph b) of Articles 3 and 6.
- 9) Even if the student who has gained the right to registration, has not registered for the program he / she has been placed in, she/ he has no right to re-apply for and choose a department if the vacant quotas are announced within the same academic year.
- 10) Students who will choose programs that accept students with a special talent exam must take the talent exams held by the Faculty of Art and Design.
- 11) As a result of the preliminary examination of the online applications, the applications of the candidates who do not meet the application requirements will not be evaluated.
- 12) Students who do not register on the registration date lose their right to enroll.
- 13) The applications of the candidates who make false statements or who are found to mislead the administration by any action or transaction are rejected. If these candidates are registered, they will be canceled.
